

UTAH DIVISION OF FORESTRY, FIRE & STATE LANDS
WILDLAND SUBDIVISION LOT WILDFIRE HAZARD ASSESSMENT

Subdivision Name:		Lot Number:	
Name of Lot Owner:			
Type of Inspection:	Initial	Reinspection	
Evaluator:		Date:	

WILDFIRE HAZARD RATING FACTORS

PT	ASPECT	SLOPE	RESPONSE	MATERIAL	VEGETATION	DENSITY
1	North	LEVEL	>15 Min	CL/RF; N/SD	Hardwoods	20%
2	East	10%	15-30 Min		Sage/grass	40%
3	Level	20%	30-45 Min	CL/F C/SD	Pinyon/jun	60%
4	West	30%	45-60 Min	UNC /RF N SD	Mtn Brush	80%
5	South	40%+	<60 Min	UNC/ RF C SD	Conifers	100%

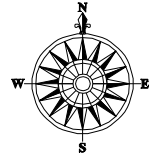

CL/RF	Class A roof	UNC/RF	Combustible Roof	N/SD	Non combustible siding	CSD	Combustible Siding
-------	--------------	--------	------------------	------	------------------------	-----	--------------------

Rating:	Moderate (5-11)		High (12-18)		Extreme (19-25)	
Is Vegetation Clearance Required?	Y	N	If yes, refer to sketch map on back of this form for guidance on specific clearance recommendations.			
Is Pruning Required?	Y	N	If Yes, to what height?			
Is There an Accumulation of Fuel?	Y	N	Disposal Needed?		Y	N
Fire Hydrant > 250 Feet?	Y	N				
ACCESS						
Are Roads Adequate?	Y	N	Are Bridges Adequate?		Y	N
If No, List Limiting Factors:						
Locked Gates?	Y	N				
STRUCTURAL DESIGN						
Roof Type:	Wood	Asphalt	Metal	Tile	Other	
Are under Floors, Eaves, Closed off?	Y	N				
Propane Tank?	Y	N	Adequate Clearance for Fire Safety?		Y	N

Additional information concerning hazard reduction measures recommended can be found on page 2 of this form.

Specific Hazard Reduction Measures Recommended: _____

To aid in identifying areas where specific hazard reduction or tree care measures are recommended a sketch map of the lot is provided below:

Other Hazard Reduction Measures Recommended: _____
